WALLNÖFER

SOLAR & WALLTHERM® ÖFEN

Spare parts price list Walltherm®

2022 V2

Dear customer,

the most important & original spare parts for the different model series of Walltherm are listed in this catalog.

When ordering spare parts, following indications are absolutely necessary:

A) Serial number of the sove,
see type plate on the right side of the stove or on the back

B) Complete billing- and delivery adress with telephone and email

Shipping company: **Before you sign the delivery note** - check the condition of your package, if any damage is evident, it is important to leave a comment at the delivery note, otherwise any claim for damages is void.

Example: Acceptance with reservation, as the box is torn open ....

Thank you for your collaboration
Team Wallnöfer

Refractory:

floor of the superior combustion chamber until serial number 1.130:

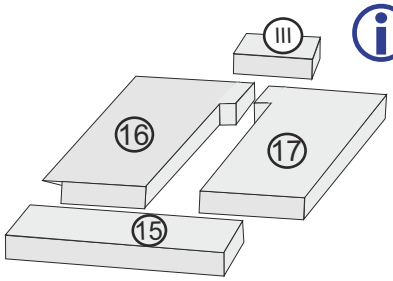

Isolation material included

SET WT0039 135,00.-

consisting of refractory bricks: 11, 12, 13, 14

III **Wt0380 14,00.-**
(not included in set)

floor of the superior combustion chamber from serial number 1.131:

The needed refractory cement is included in kit WT0048.

SET WT0048 135,00.-

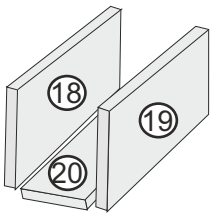

consisting of refractory bricks: 15, 16, 17

Refractory for lower combustion chamber:
until snr. 1.130:

Protection stone for the door glass

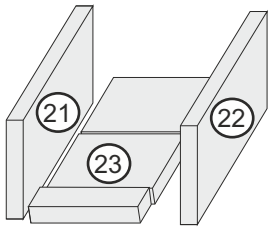

V **WT0661 8,50.-**

SET	**WT0049**	**87,00.-**
18	**WT0049-1**	**28,00.-**
19	**WT0049-2**	**28,00.-**
20	**WT0049-3**	**31,00.-**

Insulation kit around the lower combustion chamber until serial number 1.130: **WT0049-IS 27,50.-**

refractory for lower combustion chamber:
from serialnumber 1.131:

SET	**WT0051**	**87,00.-**
21	**WT0051-1**	**27,00.-**
22	**WT0051-2**	**27,00.-**
23	**WT0051-3**	**33,00.-**

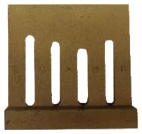

Protection stone for the door glass

IV **WT0662 8,50.-**

Insulation kit around the lower combustion chamber from serial number 1.131: **WT0051-IS 29,50.-**

Flame deviator
until serial number. 1.130
(Width 16 cm
spacer is included)

WT0031 68,00.-

Flame deviator for Wallthermⓡ
from serial number 1.131

WT0032 68,00.-
